

# Marcel Ochs

---

## Software Engineer

E-Mail: [marcel@ochs.rocks](mailto:marcel@ochs.rocks)

Github: [github.com/CashWasabi](https://github.com/CashWasabi)

LinkedIn: [www.linkedin.com/in/marcel-ochs-812582139/](https://www.linkedin.com/in/marcel-ochs-812582139/)

## SKILLS

---

I am a passionate developer. At my last jobs I worked with Flask, FastAPI, AWS, Jenkins (CI/CD) MySQL, PostgreSQL, MongoDB, Redis, PyTest, Grafana, Sentry, Git and several other tools, libs and frameworks. I also recently started looking into Django for side projects. My preferred OS currently is Manjaro Linux. I know my way around microservices or monolithic architectures and I am not afraid of working on architectural solutions that solve problems.

## EXPERIENCE

---

### Vimcar GmbH, Berlin (Germany) - Python Backend Developer

(January 2019 - Juli 2021)

- Microservices
- AWS Cloud
- Data analysis and workflow monitoring
